Art:

Family Handprint Keepsake 2020

INGREDIENTS:

500g of plain flour

250g salt

250mls of water (add slightly more water if necessary)

Bake in oven on lowest heat for 3 hours or until rock hard (took about 4 hours for ours)

INSTRUCTIONS

Mix the flour and salt then add the water. Mix into a dough. Roll out onto flat surface into desired shape about 1-1.5cm thick (remember to sprinkle some flour down to prevent sticking). Place on a baking tray. Make hand imprints (as deep/clear as possible). Place in the oven on the -lowest heat possible- and leave for 3-4 hours or until completely solid top and bottom. (Check the bottom is rock solid before you take it out and make sure you have it on the oven's lowest heat or it will burn instead. Alternatively, you can leave to air dry for a couple of days in a cool dry place).

Paint with your choice of paints/colors. Seal with any kind of varnish or sealer to preserve it for example, varnish, or a PVA and water mix. if you don't have paints then make it and paint it at a later date!

Activity:

M & M Experiment

<https://www.adabofgluewilldo.com/mm-rainbow-science-experiment/>

I encourage you to let your student have time, wherever they are, to play and explore. It could be using their imagination to play with their favorite toy, it could be looking for amazing things in your backyard or creating with regular household items. Need some inspiration for easy at home activities? Click here ⇒ ([The Office will provide this link](#))
