Wash, wash, wash, wash your hands to keep them nice and clean.  
Wash, wash, wash, wash your hands to keep them nice and clean.

Up from the stand, down in the sand; your hands will never know where they land.  
You could have picked up some dirt with germs; you can never see them as they are tiny worms.  
Don't let the germs get in your way; washing your hands makes them go away.

Wash, wash, wash, wash your hands; to keep them nice and clean.  
Wash, wash, wash, wash your hands; to keep them nice and clean.

Wash your hands before a meal; Wash your hands after a meal.  
Wash your hands if you touch your mouth; Wash your hands if you touch your pet.  
Wash your hands if you blow your nose; wash your hands if you cough or sneeze.

Wash your hands once you go to the loo; The germs will cry boo hoo hoo.

Wash your hands every time; avoid being sick all the time.  
Don't let the germs get in your way; washing your hands makes them go away.

Wash, wash, wash, wash your hands to keep them nice and clean.  
Wash, wash, wash, wash your hands to keep them nice and clean.  
Germs get in your body so very quick and make you dull and very sick.  
Washing removes the germs from your hand; and your hands are fresh, clean and grand.  
Don't let the germs get in your way; washing your hands makes them go away.

Wash, wash, wash, wash your hands to keep them nice and clean.  
Wash, wash, wash, wash your hands to keep them nice and clean.  
Wash, wash, wash, wash your hands to keep them nice and clean.  
Wash, wash, wash, wash your hands to keep them nice and clean.
